Dear Chairmen Blunt and Cole and Ranking Members Murray and DeLauro:

As Jumpstart alumni, we thank you for your past support and write today to ask for your continued support for the Corporation for National and Community Service and Federal Work Study in Fiscal Year 2018 appropriations legislation.

Jumpstart is a national early education organization that trains college students and community volunteers to deliver its evidence-based educational program to preschool children in high-need communities around the nation. Each year, roughly 4,000 Jumpstart Corps Members like us from over 78 higher education and community partners serve over 11,000 young children in low-income neighborhoods across the country. Through Jumpstart's proven curriculum, Corps Members support the development of the language, literacy and social-emotional skills young children need to succeed in kindergarten and beyond. As Corps Members, Jumpstart provided us with a transformational experience—one that opened our eyes both to the power of early education on a child's future and the power of service in our lives.

We were extremely disappointed to see that President Trump's proposed Fiscal Year 2018 budget eliminates federal funding for the Corporation for National and Community Service (CNCS) and slashes Federal Work Study (FWS) by nearly fifty percent. The loss of funding from CNCS and FWS would be devastating. In addition to thousands of preschool students losing access to critical educational and social-emotional skill development programming, these cuts would force Jumpstart to terminate countless university partnerships, eliminating the opportunity for future Corps Members to have the same experience to which we had access.

Federal support for both national service and work-study opportunities are crucial for future Corps Members to continue to take part in this life-changing program. Jumpstart is an AmeriCorps program; roughly 87 percent of all Jumpstart volunteers are AmeriCorps or Senior Corps members. This year alone, Jumpstart's AmeriCorps and Senior Corps members will

provide over 1,000,000 hours of service to children in America’s most vulnerable communities. CNCS provides roughly 45 percent of Jumpstart’s overall annual budget to enable these thousands of volunteers to serve in preschool classrooms and deliver the promise of opportunity to young children. In addition to CNCS funding, Federal Work Study supports Jumpstart in recruiting and training its Corps Members; over 98 percent of all of Jumpstart’s college Corps Members receive FWS. This funding allows all college students to participate in important workforce training and service opportunities, including with Jumpstart and countless other community service and literacy organizations. FWS also enables Jumpstart’s volunteers to better reflect the students they serve—roughly half of all Corps Members are first-generation college students. Since many of us needed to work in order to afford college, we would not have been able to participate in Jumpstart and serve our community had FWS not been available to us.

As former Corps Members, we know firsthand the transformative impact of AmeriCorps and Federal Work Study. Both of these programs provide access to education, service, and workforce skills for those most in need. Given our personal experience, we ask that for Fiscal Year 2018, you support fully funding the Corporation for National and Community Service and Federal Work Study to ensure that Jumpstart can continue to engage future Corps Members in service to preschool children in under-resourced neighborhoods across the country.

Sincerely,

Jumpstart Alumni (549)
